Hitch and Julia Fell <i>Speakers: Dr. Neal Hitch & Julia Fell</i> <i>Artists: Joe Johnson</i> What do the 1960s social movements and The Flower Power Cruise have in common? Buttons! The 1960s is known for its many social and political movements that challenged the status quo. An easy way for group members to identify each other at marches and gatherings, and for community organizers to help people feel included was to distribute pin buttons with eye-catching statements and designs. And just like on cruises, buttons were a good way to let others know a little bit about you at a glance. The Museum at Bethel Woods has 137 buttons in its collection that were worn at events representing presidential campaigns to the ecology movement, from women’s rights to the fight against the Vietnam War, a button for nearly everything that young people (meaning YOU) were concerned with. Come take a look at some of these small but powerful pieces of history from the collections at the Museum at Bethel Woods. Attend this event to get a new button of your own!	(C) Sky Lounge, Deck 11

What is less known and often little appreciated is that the melodies for those songs as well as many others recorded during the "Flower Power" era were written decades or in some cases centuries earlier and have their roots in classical music, grand opera, or Broadway shows. During this presentation we will have an opportunity to relive a dozen or so examples of songs in this category, compare them to the original version, and examine how the adaption from classical themes to Rock and Roll standards was accomplished so successfully.
