Instructions for Ordering Parts

Please read these over carefully to avoid mistakes

- 1—Order all parts through nearest Ford Branch or Ford Dealer in your vicinity, as parts for the Ford Model T Car are carried in stock by them.
- 2—Always specify **Model** and **give Car Number** of your car. Give **Number** and **Name** of each part ordered.
- 3—**Cash should accompany all orders.** If it is desired to have parts shipped C. O. D., a deposit sufficient to cover transportation charges both ways must be remitted with the order.
- 4—Parcel Post orders must be accompanied by an amount sufficient to **cover Postage.** Weights are shown opposite all principal items.
- 5—All prices are net f. o. b. Ford, Ont., plus surcharge to cover freight, packing, etc. (See notice on inside front cover.)
- 6—Specify whether shipments are to be forwarded by parcel post, express, freight, or with carload of machines.
- 7—Orders for parts should be written separately from correspondence pertaining to other matters, to insure prompt handling by the Service Department.
- 8—In ordering old style and obsolete parts it is always advisable to send the old part as a sample. Be sure to show your name and address plainly on the package and mark the part "sample."
- 9—Claims for shortage must be made within ten days of receipt of shipment.

IMPORTANT

Never order parts in sets; always specify the exact quantity of each part required. For instance, "a set of piston rings" never mean three rings (for one piston) or twelve rings (for four pistons).

In ordering parts which are used on both sides of the car, such as fenders, front wheel cones, etc., and where any doubt exists as to whether parts for opposite sides of the car are alike, be sure to specify whether the parts ordered are for the right or left side of the car.

The right side of the car is the side on your right when seated in the car facing forward. (The valves, carburetor, etc., are located on the right side.)

Parts marked "for Left Control Cars" can only be used on cars controlled from the left side; parts marked "for Right Control Cars," can only be used on cars controlled from the right side. All other parts are standard for both right and left control cars.

Illustrations show left control parts only.

Assemblies always include parts shown in illustrations.

Spark plugs and tires are not listed in this Price List, as such items can be obtained from the ordinary garage or supply house.

Telegraph Code

To save expense, to expedite ordering and for the convenience of those purchasing parts, we have arranged a code word for each part of the Ford Model T car. In addition to the Parts Code we list below a brief General Code covering miscellaneous instructions, questions and answers relative to the entering and shipping of parts orders.

In telegraphing an order for parts start with the code telling us how to ship, then use the word for the part wanted, stating the number required and then give the number of your car.

The following will illustrate how to send in an express order for Eight Push Rods No. 3058, and Three Transmission Band Springs No. 3425:

Accessories and Accessory Parts
on following pages

Owing to material shortages, limited demand, variations in parts, etc., we cannot supply old style accessories or parts thereof (prior to 1915 models). Wherever possible we recommend the use of a 1917 assembly. Small parts of old style accessories can usually be obtained through local accessory stores (*or local carriage makers in the case of top parts.*)

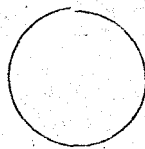

We will not furnish small parts of assemblies not listed herein.
