

ANDY'S HANDY Dining Room and Kitchen

This complete camp cooking and dining outfit packs into a neat running-board case only 30 in. x 29 in., and tapering from 8½ in. at the bottom to 4¾ in. at the top. Two bolts with easily removed wing nuts hold it securely to the running board.

It is instantly converted into a dining table with buffet and kitchen-cabinet attached. The equipment is more neat and compact, and therefore, handier than the average kitchen.

A two-burner gasoline stove makes cooking easy. The equipment includes:

- | | |
|---------------------|-----------------------------|
| 4 knives | 2 basins |
| 4 forks | 1 dish pan |
| 4 teaspoons | 5 containers for provisions |
| 4 plates | 2 large spoons |
| 4 cups | 1 stew pan |
| 4 side dishes | 1 water bucket |
| 1 coffee percolator | 4 stools |
| 1 omelet pan | 1 table for four |
| 1 gasoline stove | carving and paring knives |
| 1 salt shaker | |
| 1 pepper shaker | |

Equipment is made of 20 year aluminum.

Showing Part of Room

This illustration shows dressing room attached to tent and rolled to first post to form a sun shade. Extending all around the poles and back to the car will make a comfortable shelter for cool weather.

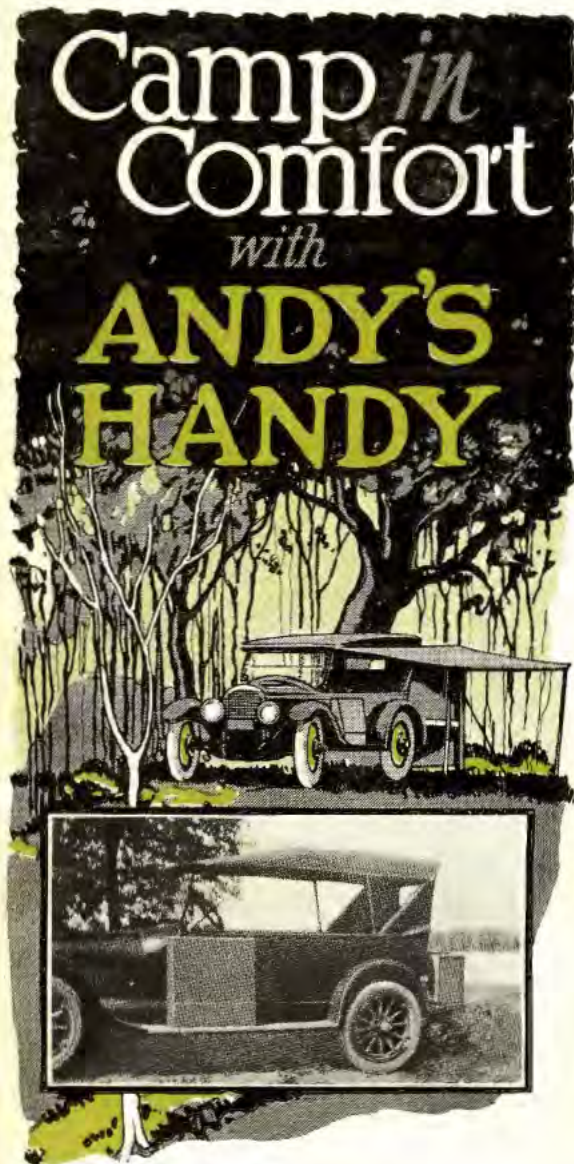

Unrolling back to the car will make a neat three-cornered dressing room.

Showing Rear of Car

This illustration shows back of car with tent, bedding, etc., snugly rolled up into compact space for convenient carrying.

Answers the Call of the Open Road

Beds for Four

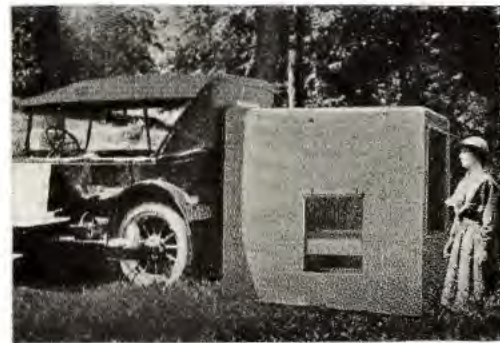

WHERE is the man who drives a car who has never felt the urge of the open road—the desire to stretch woodland days into woodland weeks, camping beside trout streams and crystal lakes with a few congenial companions?

Perhaps you have the car, and the time—the only thing that is holding you back is the thought of leaving behind you the comforts to which you are accustomed. You stop at the thought of cumbersome equipment, faulty sleeping quarters, bad weather, insect pests and the drawbacks of ordinary camp cookery. If it were not for these things, touring and camping would be a delight—you would rather camp than go to a resort, wouldn't you?

THEN YOU CAN CAMP OR TOUR TO YOUR HEART'S CONTENT. For ANDY'S HANDY has at last brought real comfort to camp life. Here is a "COMPLETE HOME" that you can load on your car in a jiffy. It is so neat, so compact and light that no one would ever guess you were touring to look at your car—yet

once out in the open you can quickly set up a camp that is as comfortable and practical as the accommodations of a Pullman Car.

ANDY'S HANDY is the final solution of camping problems of the motorist.

All the Comforts of Home

Until you see ANDY'S HANDY you'll never believe it possible to get so many camping comforts into such small space. You will marvel the first time you see a small case expand into complete sleeping quarters for four—two berths like those in a Pullman, in a space 6 ft. x 6 ft. 7 in. x 44 in.

The lower berth has a mattress of the most comfortable type made—a pneumatic. The sidewalls of the sleeping quarters are firmly pinned to the ground, keeping out all insects. "Windows" are equipped with netting and storm flaps. You can sleep through a rainy night, or in a cloud of mosquitos in perfect peace.

The sidewall of the sleeping quarters raises, forming a canopy which can be enclosed with an extra storm-wall—giving ample room to dress, or lounge in bad weather.

The canvas used is the best water-proof army material, olive drab in color. It is supported by bamboo poles which fasten under the running boards, and which can be used for fish poles whenever necessary.

Utmost Simplicity

ANDY'S HANDY requires no heavy poles and stakes that are apt to get lost or out of order. It is completely set up in a few minutes, making it the ideal equipment for touring where it is desired to save time in pitching and striking camp.

There is not one piece of surplus equipment in the camp outfit—not one piece is lacking that is necessary to camp comfort.

Including the kitchenette, which is described on the next page, the whole outfit weighs less than 200 pounds, and it fastens to the car so neatly and securely that there is no rattle and clatter when driving—no danger of losing equipment.

WRITE TODAY FOR FULL DETAILS

Give us the name of your car, its year and the model number. We'll give you complete details of the ANDY'S HANDY that will make it the snuggest, most compact and comfortable traveling equipment you ever owned.

The price for an ANDY'S HANDY is surprisingly low. It would take but a few hotel bills when on tour to pay for it complete—and it's far less than the rent on an unhandy, stationary cottage on a lake shore for the summer.

Don't miss the pleasure of the open spaces—the joy of carrying a comfortable home to any lake or stream, or bit of scenic beauty—the fun of the long tour through Nature's wonderlands—don't miss these things any longer. You can go where you please at small expense.
