We are now the largest organization of its kind in the world, with 30 big stores conveniently located to give you quicker and better service.

I want to take this opportunity of personally thanking our millions of customers everywhere for their generous patronage which has made it possible for us to grow from a small one man store into the largest organization of its kind in the world.

An average of one out of every five car owners in the entire United States is now getting their tires and supplies from Western Auto stores.

Automobile owners everywhere are now realizing that they can always depend upon the World's Oldest and Largest Exclusive Auto Accessory Stores for the Highest Quality, Lowest Prices, and Quickest Service and an Absolute Guarantee.

Satisfaction or Money Back

18 Years of Service

For more than 18 years we have been handling Tires and Auto Accessories exclusively and devoting our entire time to the study of the individual car owner's needs. Our big chain of 30 stores keeps us in close daily contact with our customers and their requirements, and enables us to serve them far better than if we were just a mail order house, that carried auto supplies merely as a side-line or one of many other departments.

One of our big stores is located near you with large and complete stocks, insuring you quicker service and a saving in transportation charges.

If you reside in, or visit, any of the following cities, we cordially invite you to visit our big retail store where you will find everything shown in this catalog attractively displayed ready for your personal selection with experienced and courteous salesmen always ready to serve you.

30 Big Stores Located in the Following Cities

Atlanta Baltimore Kansas City (4 stores) Chicago
Birmingham St. Louis Cincinnati
Memphis Tulsa Columbus
New Orleans Oklahoma City Dallas
Little Rock Wichita Ft. Worth
Louisville Topoka San Antonio

OUR POLICY

When we receive your money for any article in our catalog, we don't consider that the money belongs to us, but in still yours and subject to be returned to you until after you have received your purchase and found it exactly as illustrated and described.

We employ a large force of competent people in all departments, who give your orders careful and prompt attention, but if for any reason an error should be made, we want you to write us fully and give us an opportunity to make it right. We assure you that we are always at your service, and that you will be treated just as we should like to be if we were in your place.

Western Auto Supply Co.

Copyrighted 1927 by Western Auto Supply Co.

Don A. Davis
President
Largest Reduction in Our History. This increased efficiency enables us to build even better workmanship on more outstanding tire values.

Fulldy Guaranteed
Each tire is guaranteed against defects in material and quality—bears the manufacturer's stamp of approval and carries a definite mileage guarantee.

Wear-well Cords are Favorites
Thousands upon thousands of motorists—driving all makes of passenger cars—are riding on Wear-well Cords. In fact, so popular have Wear-well and other "Western Auto" tires become, as well as they are known as "mileage producers" that we are enjoying the highest tire business in our history. This increased sales volume enables us to make big savings in our factory costs and consistent with our policy of "More For Your Money," these savings are passed on to you.

Full Oversize Full Standard Weight
There is no skimping in the building of Wear-well Cords. Our specifications are followed to the letter by the largest, well established and reliable tire manufacturers in whose plants these tires are made. It is a matter of how heavily we build Wear-well Cords but rather how well we can build them. They must be worthy of their name. They must be so good that we may conscientiously recommend them to our customers.

Tested Quality
Only high grade materials are used in the construction of Wear-well Cords. The tread is scientifically designed to give you maximum wear and sure-footed traction. Every step in the process of manufacture is carefully supervised and closely inspected. With the result, that every tire is first quality—bears the manufacturer's serial number, has our stamp of approval and carries a definite mileage guarantee.

Shipped C. O. D. Without One Cent Deposit
We invite you to take this opportunity now to compare Wear-well Cords with any other tires that you have ever used. Most other houses require that you send your money in advance before they will make adjustment. So certain are we that Wear-well Cords are superior to other tires selling at prices 60 to 80 higher, and knowing that our prices offer you such an exceptional value no matter where you live, we are willing to ship you as many Wear-well Cords as you need without asking one cent of deposit. When the tires arrive, examine the big, sturdy construction, feel the tough, tight, wear-resistant tread, examine the heavy, strong side walls and note the improved and attractive scientific non-skid tread design, weigh them, and make every possible comparison with any other tire on the market, regardless of name or price, and, if you do not pronounce them to be the tested, most exceptional tire value that you ever saw, or if, for any reason, you are not satisfied, instruct the express agent to return them to us at our expense. If shipment is made by Parcel Post, which does not carry the privilege of examination before acceptance, just return the tires to us, unused, and we will cheerfully replace any defective coating on a basis of 8,000 miles on standard sizes and 10,000 miles on Oversize, charging only for the mileage received.

We recommend 30x3 ¼ STANDARD SIZE tires only when you wish to buy one tire to go along side of a fabric tire or another standard size cord.

When changing two or more tires, we recommend OVERSIZE tires. They cost slightly more but are much more economical to use, besides giving better riding qualities to the car and greater resistance to punctures and stone bruises.

We will repair or replace any defective Wear-well coating on a basis of 8,000 miles on standard sizes and 10,000 miles on Oversize, charging only for the mileage received.

10,000 MILES
Standard Over Size, Standard Weight

AT NEW REDUCED PRICES

In all our 16 years' experience we have never offered a more outstanding tire value than these Wear-well Full Balloons at our new reduced prices. Yet modern methods of production and the low price of rubber together with our tremendous volume of business, and direct-from-factory-to-car-owner system of distribution enable us to build even better tires—tires that stand the hardest of all tests—actual satisfactory use on thousands of cars everywhere.

TESTED QUALITY

Wear-well Balloons are built of selected, high grade materials. The tread rubber is extra tough and long wearing. The cords are full size and are thoroughly impregnated and insulated with highest quality friction gum. The sidewalls are strong yet pliant. Master tread rubber is up to our own carefully supervised specifications, with the result that every Wear-well Balloon is first quality, bearing the manufacturer's serial number.

GUARANTEED 8,000 MILES

Good value and long mileage are built right into every Wear-well Balloon and every one bears our guarantee against defects in workmanship or materials for 8,000 miles. And back of this guarantee stands the millions of dollars of resources of the Western Auto Supply Company, the largest concern of its kind in the world and with a reputation for 16 years of honest dealing.

Shipped C. O. D. Without One Cent Deposit

We are so sure that you will pronounce these Western Giants the greatest truck tire value you ever saw, that we will ship you as many as you need, C. O. D., without one cent deposit. When they come examine their rugged construction, feel the thick, tough tread, the extra strong reinforced shoulders; weigh them, compare them in any way with any tires you have ever used. If then you are not satisfied with the outstanding quality, instruct the express agent to return them to us at our expense. If shipment was made by Parcel Post, which does not carry the privilege of examination before acceptance, just return the tires to us, unused, and we will cheerfully refund every cent you have paid, including transportation cost. Could you ask anything fairer than this?

TIRES MOUNTED FREE AT OUR STORES

Built to Carry the Overloaded Truck and Bus

Bus owners, commercial companies, truck drivers, and all whose time is money and are always in a hurry and have no time to "nurse" thin tires, are using Western Giant truck tires.

Western Giant truck tires embody all of the qualities of our Western Giant Cords—all of the knowledge gained in thirteen years of experience with tires. They were built to fill the long felt need in commercial motor transportation—tires that would reduce tire costs and eliminate the costly stops for roadside repairs. That Western Giant truck tires fill this need is borne out by their great popularity among tire buyers who have studied their tire problems and who use that accurate measuring stick—mileage and dependability—to gauge the value of tires.

Shipped C. O. D. Without Deposit

We are so sure you will pronounce these Western Giants the greatest truck tire value you ever saw, that we will ship you as many as you need, C. O. D., without one cent deposit. When they come examine their rugged construction, feel the thick, tough tread, the extra strong, reinforced shoulders; weigh them, compare them in any way with any tires you ever saw, and if you are not satisfied that they are an exceptional tire value instruct the express agent to return them to us at our expense.
You have been looking for lower prices. Here they are. The recent reduction in rubber prices, together with our enormous buying power for all our chain of stores, enables us to offer still lower tire prices. Never, during the 18 years that we have been handling tires have we seen tire prices so low and, regardless of these exceptionally low prices, the quality of Western Giant Cords has been consistently and constantly improved with the improved, scientific methods of tire construction.

We challenge any tire on the market, regardless of price or make, for greater service or greater value. Our reputation of 18 years standing for square, honest dealing, together with millions of dollars of resources, stands back of every Western Giant Tire. Hundreds of thousands of Western Giant Cords have been sold by us since we were introduced. When Western Giant Cords are sold by our automobile owners everywhere are now convinced that they can absolutely depend on the uniform, extraordinary quality of our tires. If Western Giant Cords were not extra quality, with extra mileage built right into them, we could not continue to offer them to you on a basis of 12,000 mile guarantee, when you ask for anything better than this?

DIRECT FROM FACTORY
DIRECT TO YOU

It costs just as much to build a Western Giant Cord as it does to build any other high grade tire on the market, but our cost of getting the tires from the factory onto your car has been reduced to the minimum. All in-between cost, such as elaborate and expensive advertising methods, clerical and warehouse expenses, traveling salesman, have been practically eliminated. This, together with our enormous buying power, quick turnover, and cash system of distribution, enables us to offer these big, sturdy Western Giant 12,000 mile cords for less than the prices that are usually asked for the most ordinary tires being offered today. Most of our tires are shipped direct from the factory to our stores in carload lots. This constitutes big savings in transportation costs and is just another of the many reasons why we are able to offer you these exceptional tire values.

Do not blame your local dealer for asking high prices. Considering his small buying power and customary methods, and with his limited volume, he is obliged to get higher prices.

With our big chain of stores and enormous volume of sales, we are able to turn our stock over rapidly, thus always insuring our customers new, fresh stock.

SAVE ON TRANSPORTATION CHARGES

Our stores are located so near you, insuring quicker delivery and less transportation charges. If you will compare these charges with other houses, you will be surprised at the difference. For instance, if you live within 150 miles of one of our stores, you can have a 30x91/2 Western Giant Tire delivered to you by parcel post for only 25c and usually within a few hours time; whereas, if you should order it away, a firm located as much as 300 miles away, the transportation charge would amount to almost double that amount and require a correspondingly longer time for your shipment to reach you.

Guaranteed 12,000 Miles

We guarantee Western Giant Cord Tires against defects in materials or workmanship on a basis of 12,000 miles' service. We will repair or replace any DEFECTIVE casing on the above basis charging only for the mileage received from the tire.
Western Giant Balloons

New Wear-Resisting

Lowest Prices Ever Offered

These new reduced prices make Western Giant Full Balloons, without question, one of the greatest balloon tire values ever offered. They are the very latest development for tire comfort and economy. No expense has been spared to make Western Giant Balloon Cords one of the most comfortable, longest wearing and most economical tires ever built.

Save $5 to $20 on Every Tire

We buy direct from the factory and ship to our stores in carload lots. We sell direct to you through this catalog adding only our small profit to our cost, saving you from $5 to $20 on every tire, depending on the size. It stands to reason that we can furnish you with better tires for less than any concerns that are compelled to add to their prices in-between costs, such as high freight rates for small shipments, expensive methods of advertising, distributor’s and jobbers' profits, and finally a larger profit on account of their necessarily limited volume of business.

Save on Transportation Charges

We handle automobile tires and accessories exclusively devoting our undivided attention to the car owner’s needs. The results of our long and specialized experience are conspicuously reflected in the superior quality of our tires and our ability to save our customers money and render them quicker and more efficient service.

One of our stores is located near you, insuring quicker delivery and less transportation charges. If you will compare these charges with other houses you will be surprised at the difference.

For instance, if you live within 150 miles of one of our stores, you can have a 29x4.40 Western Giant Balloon delivered to you by parcel post for 24c and usually within a few hours; whereas if you should order from a firm located as much as 300 miles away, the transportation charges would amount to almost double that amount and require a correspondingly longer time for your shipment to reach you.

You Can Pay More Money But You Can’t Buy Better Tires

We have made examinations and tests: we have cut up and scientifically analyzed tires that sell at prices $5 to $20 higher than our prices (depending on the size) and we have found Western Giant Balloons equal or superior to any tire that we have ever examined.

The cords are full standard size and strength; the rubber is the most elastic, durable, and tough tread rubber we have ever seen. The whole has been one strong, flexible, wear-resisting unit which insures the most elastic, durable, and tough tread rubber we have ever seen. The whole is the most certain method of not falling off the wheel and the most certain method of adding only our one small every possible comparison with any tire you can have.

Now, at this low price, you can buy Western Giant Balloons of the same or better quality than the tires you have ever used regardless of name or price. If you do not agree that they are the greatest tire value you have ever seen or if for any reason you are not satisfied, instruct the express agent to return them to us at our expense. If shipment was made by parcel post, which does not carry the privilege of examination before acceptance, just return the tires to us unopened, and we will cheerfully refund every cent you have paid, including all transportation costs. Could anything be fairer than this?

**For Cord, Fabric and Balloon Tires**

No matter how good your tires may be, you cannot expect satisfactory tire service unless you use good inner tubes. One Jumbo Double Service Extra Thick Tube will give you longer and more satisfactory service than two ordinary tubes. The very best materials are used throughout, and they are made by the latest most improved scientific laminated process of construction. Full size with extra strong gusset, double strength at the valve stem, and fitted with highest quality standard valves. Jumbo Double Service Extra Thick Tubes are almost 50% thicker and heavier than the average tube. These new reduced prices are the best weight and thickness, and ensure greater strength, longer life and better service. Every Jumbo Double Service Tube is thoroughly tested and inspected before leaving the factory and is guaranteed by us for two years against any defects in workmanship or material.

**Western Standard Tubes**

Western Standard Tubes are made exclusively for us of the best selected materials and by the latest scientific method of construction, which has practically overcome trouble from slow leaks. Reinforced at splice and around the valve stem and fitted with the highest quality standard valves. Western Standard Tubes are not the thin under-sized heavily compounded tubes that are sometimes offered at about our prices. But are full standard size and weight and every tube bears our name and guarantee against defects in workmanship or material. Every tube is thoroughly inspected and tested before leaving the factory. Full size and strictly new fresh stock.

The following new reduced prices are the lowest that we have ever offered. Why pay high prices on unknown brands from unreliable sources when you can get high grade guaranteed tubes at these low prices?
12

**Full Standard Size and Weight**

**SPECIAL ONE SIZE ONLY 30 x 3 1/2 REX CORD**

Rex Cords are designed and offered to meet a growing demand for a cheap 30 x 3 1/2 Clincher tire. Rex Cords are built full standard size and weight with 4 plies of good cord fabric, careful workmanship and have a very attractive as well as effective tread design, but are built entirely of "reclaimed rubber." For this reason, together with our enormous buying power and direct-from-factory-to-car-owner method of distribution we are able to offer these 30 x 3 1/2 Rex Clincher Cord tires for the ridiculously low price of $4.49, or about the price that is usually asked for a second or rebuilt tire of the same size.

Rex Cords come in one size only, in one size only. $4.49 per 30 x 3 1/2 CL REX CORD (Ship. wt. 12 lbs.) OUR SPECIAL PRICE $4.49

**WESTERN STANDARD FABRIC TIRES**

**30 x 3 CL and 30 x 3 1/2 CL ONLY GUARANTEED 6,000 MILES**

We are discontinuing the Western Standard Fabric Tires and have a limited supply of the popular 30 x 3 and 30 x 3 1/2 sizes on hand, which we are now offering subject to stock on hand at these special close out prices, which are less than actual factory cost. The standard sizes that we have been selling for the past several years. Thousands are now in daily use. New, fresh stock, full standard size and weight and subject to our guarantee of 6000 miles. Our supply of these high grade, guaranteed tires will not last at long at these prices. Take advantage of this opportunity now. Furnished only in clincher rim, sizes 30 x 3 and 30 x 3 1/2 only.

**Save on Genuine Schrader Gauges and Valve Cores**

Each Gauge comes in a neat leather case. Every car owner should have one. Make it a practice to test your tires often and have one ready. Keep valve caps and dust caps with your gauges. *

**Schrader Balloon Tire Gauge**

Accurately indicates tire pressure by single push of gauge plunger from 10 to 40 lbs. An absolute necessity for every balloon-tire user who wishes to get the best service from his tires.

Our Reduced Price J7T10—Balloon-Tire Gauge, (Ship. wt. 8 oz.)......1.25

**Schrader Special Tire Gauge For Trucks and Wire Wheels**

The balljoint feature gives access to valve stems in close place. Shows pressures from 30 to 170 lbs. Next leather case. Our Reduced Price J7T08—Special Tire Gauge, (Ship. wt. 8 oz.)......1.35

**Schrader Regular Tire Gauge For High Pressure Tires**

The regular Schrader pressure gauge for high pressure tires and fabrics. Our Reduced Price J7T07—High Pressure Gauge, (Ship. wt. 8 oz.)......1.19

**New Improved Valve Cores**

Provide the perfect solution for every problem that can arise in connection with valve cores. The core is made of "reclaimed rubber," which has experienced difficulty in the past due to the high cost of new cores. Our Reduced Price J771—Set of 2, (Ship. wt. 12 oz.)......0.65

**Dill Instant-On Combination Valve Cap and Dust Cap**

A well-known tire valve sealing device that combines the dust cap and the special leakage proof valve with one unit. Screwing on the valve cap automatically closes the dust cap firmly against the wheel. Much quicker and easier to use than any ordinary dust valve and cap. Just a few turns seals the valve against any vacuum or pressure. Dust is kept out and moisture from the air is kept out. Can be used with any pump or standard pressure gauge. Packed 5 in metal container.

J7722—Package of 5 Valves (Ship. wt. 4 oz.)......0.19

**U. S. Universal Tire Gauge**

Perfectly accurate and durable; easy to read and handles any pressure up to 500 lbs. in an entirely of brass and having a shape that makes it one of the best gauges on the market. A genuine "Dill" gauge. Comes in a neat leather case.

J7T02—For high pressure tires, 10 to 120 lbs., standard stem. Our Reduced Price J7T02—For Balloons, 1 to 60 lbs., bent stem...

**Leak-Proof Valve Caps**

Prevent valve leaks and the resulting under-inflation that ruins thousands of tires. Screw drawn inside valve stem, thus breaking passage of air, besides forming a guide for proper seat and won't cut like rubber or leather. The entire valve stem is screwed in, thus making it easy to use. A screw-in valve stem. Our Reduced Price J7J05-Leak-Proof Valve Caps, Set of 6........0.29
EVERLASTICK RUBBER BACK PATCH

Carry A Can With You For Emergencies

A quick, permanent repair patch for inner tubes. Get your own patches to fit the size of your tube, and always carry a can. Each can contains two rustproof rubber patches, with each patch furnished with enough cement to make a complete repair. The rubber used is of the highest quality, and the cement is a specially formulated blend that makes it very easy to apply. A single patch is enough to make a complete repair in no time.

Monkey Grip Tube Patch

This well known, high quality, rustproof rubber patch will meet any emergency. Made of a rustproof rubber compound, it will not rust, even if water gets inside. A single patch is enough to make a complete repair in no time.

Sure-Hold Extra-Quality Patch

An extra quality rubber patch that is perfect for any emergency. Made of a high quality rubber compound, it will not rust, even if water gets inside. A single patch is enough to make a complete repair in no time.

Vulcanizing Rubber and Cement

Tread Stock is for repairing holes in casings. Combination Rubber is for using inside tubes. Tube Stock is for small punctures in inner tubes. High quality, made to last.

SURE-HOLD PATCH OUTFIT

A special rubber cement spread on the surface of the patch makes it stick permanently to the casing. The cement is a specially formulated blend that makes it very easy to apply. A single patch is enough to make a complete repair in no time.

Tire Plaster Patch

A quick, easy, efficient way of repairing punctured rubber and small blowouts in casings, without the expense and delay of vulcanizing. This plaster will hold a leak for 15 minutes, and is especially effective on small punctures. A single patch is enough to make a complete repair in no time.

SURE-HOLD BLOW-OUT PATCH

A special rubber cement spread on the surface of the patch makes it stick permanently to the casing. The cement is a specially formulated blend that makes it very easy to apply. A single patch is enough to make a complete repair in no time.

Largest and Most Complete Stock in the Country.
Tire Cut Filler

36c

Tire Cut Filler is a heavy rubber compound that fills cuts and holes in casing. In an auto oven or stove box, a large sand blister, unless sealed immediately, permits water to reach the rubber, causing the cords to work loose and rot, making a blow-out certain. A small amount of Tire Cut Filler, applied to the cut as soon as it is discovered, will prevent blow-outs and greatly lessen the chances of cuts occurring. Once it sets quickly, becomes a part of the tire. Does not deteriorate and will not set up in a hard mass. Full directions on every tube.

Casing Repair Rubber Plugs

Water and dirt get into the casing and rot the fabric. Then you can stop by inserting a ready-made plug of the proper size to prevent further damage. Made of rubber, and are inserted in the puncture hole as shown, by means of the inserting tool. Very easy to install. Cannot come loose—make a permanent repair. Will not shake inner tube. Oiltight and sun light proof.

Tire Cover

Endless Tube Protector Flaps

For 30x3.50, 31x4.50, 31x4.80 Rims

Protects the tube from cutting from the rough rim and blower cut down to the tube bottom. Flap has just enough elasticity to stretch over the tire so it cannot wrinkle and pinch. Made of heavy gauge steel and finished in baked on enamel. The handle is 6 inches long; shaped to fit the hand and is permanently attached to piston by riveting. The base is 2½ inches square. When the handle is pressed into the heavy gauge base, the pump will not be injured.

Tire Fills

Should be added to every tire. Prevents the tube from rubbing against the rough rim and permits it to lay against the smooth surface of the flaps. Made of new rubber and good fabric with edges turned. Will wear out several sets of tires.

Tire Cut Filler Kit

30c

Includes Rubber Putsy and Cement

A high grade outfit for repairing cuts and gouges in casings. Prevents water, sand and dust from getting into the tubes. A well-known staff product. Simple to use, makes the hole without damage or any cement, at a very small cost. Prevents all cuts to the cover smooth and tight. (Average 3c.

Valve Stem Seal Tube Protectors

Drums (tire covers) fit either high pressure or low pressure tubes in sizes shown.

Pump Hose and Hose Clamps

Pump Washers

High grade leather washers for 1.5 and 2.5 gallon pumps. Also has a 1-inch clamp for each 3c set of 4.

Pump Tubing

Extra heavy, extra strong rubber tubing for hand and power pumps. Tubing made of rubber, 18 gauge steel, is 2½ inches long; shaped to fit the hand and is permanently attached to piston by riveting. The base is 2½ inches square. When the handle is pressed into the heavy gauge base, the pump will not be injured.

Screw-On Pump Connection

Tire Valve Tool

Western "Big Chief" Tire Pump

$1.40

Our Western "Big Chief" pump has so many superior features and is sold to you backed by a 3-year guarantee, it has an extra heavy construction, and true economy. It pumps a tire up very quickly because the large size (full 1½" x 2") makes the "Big Chief" pump a great value. When applied to the tire within one inch apart will make a tire come up to pressure faster than a tube. We have a finished appearance. The folding base requires space in the tool box than the ordinary base. Our pump comes equipped with 5 ft. of 10 ply strongly wound rubber hose, which makes a quick, leakproof connection to the inner tube valve. Our model is a unique design of the Filler that is so constructed that you cannot injure your inner tube valve. Our "Big Chief" pump is made to last and last well.

"Quick-Repair" Rim-cut Hooks

Rim-cut hooks inserted into the tire above the flat spot makes a tire come up to pressure faster than a tube. Made LUG tight. Fills puncture hole. Made of baked on enamel. The handle is 6 inches long; shaped to fit the hand and is permanently attached to piston by riveting. The base is 2½ inches square. When the handle is pressed into the heavy gauge base, the pump will not be injured.

Endless Tube Protector Flaps

Made to fit the hand and is permanently attached to piston by riveting. The base is 2½ inches square. When the handle is pressed into the heavy gauge base, the pump will not be injured.
GIANT TIRE CHAINS

Western Giant Chains are unquestionably one of the best chains we have ever offered. Chain and cross links are ordinary chains; those placed in the body of the chain are extra heavy. A new improved fastener makes Western Giant Chains one of the easiest to put on and take off, yet holds them securely.

Up to 1900 lbs.
Rapidity pavement.

For High Pressure Tires, Either Cord or Fabric

For Full Balloon Tires

Gripwell Tire Chains

Much heavier than ordinary chains. Make the most efficient traction and anti-skid device for truck tire. Designed for your wheel of One Ton Truck.

Case-hardened Cross Links

X8806-32x4- 3.6x4 3.655

Atlas Giant Jack

A very strong, easy-working jack. Can be used on any car or truck weighing up to 3000 lbs. Heights from 3 inches to 16 inches. Made of best materials. Steel and gear are made from all-steel forgings. Includes a new type of tire support, 5 lbs. to 8 lbs. (depending on size). Weight, about 3 lbs. Our Reduced Price.

Heavy Duty Balloon Tire Jack

For the car owner who wants a jack that will do quickly, and easily. Any size truck, for up to 3000 lbs. Will stand up under hardest use for year after year. 12 lbs. weight, 30 lbs. weight, 6 lbs. weight, and 4 lbs. weight. The jack will lift one wheel on a load of engine with ease, while the other side of the truck remains on the ground. Price: 3 lbs. per pair. 4 lbs. per pair.

Steel Chain and Tire Tool

A strong, well-made tool for putting on and taking off tire chains. Comes complete with a set of links and a pair of chains. Price: $5.00 per pair.

Emergency Mud Hooks

Have a pair of these Mud Hooks in your car, and you can use all the help you can get. If you get stuck, just put one end of each hook around the tire, and tie it down. With this tool, you can easily tighten your chains in a minute. Also makes a good tire chain repair tool.

Self-Closing Cross Chain Repair Links

Do not suffer the annoyance and danger of broken links. Cross Chains are broken in the center of the link. Links are designed to prevent excessive cutting of tire and undue strain on the lengthwise splitting of rubber. Grips well on the tire, yet holds the tire securely. These chains are designed to prevent excessive cutting of tire and undue strain on the lengthwise splitting of rubber. Grips well on the tire, yet holds the tire securely.

Vaporizer Air Cleaner

For Ford Cars with Holley Vacuums

Save money, save repairs, prevent dust, dirt, etc. from entering your motor, and cut down maintenance and costs. This is the most economical way to clean the air for your car. For only $2.75 you can have the vaporizer for your car. It is quite simple to install and will save you many dollars in repairs. It will pay for itself by saving you on fuel alone.

Vaporizer for your car will also prevent dust and dirt from entering the motor. This will save you many dollars in repairs and maintenance. It will pay for itself by saving you on fuel alone.

Carburetor Choker

Saves considerable fuel on your car. Saves you 5 to 20% fuel in any car. Will save you money on fuel. Also prevents the motor from overheating.

Carburetor Adjuster and Choker

For 1925-25 Ford Cars

This is the only carburetor adjuster and choker that can be used while the engine is running. You can adjust the carburetor while the engine is running without shutting off the engine. You can also use it while the engine is not running. It is an excellent money saver.

mile-Maker Tables

Much of the gasoline you buy is wasted in the form of exhaust fumes. The mile-Maker tables show how much can be saved in fuel and money by using a mile-Maker vaporizer. The tables show that a mile-Maker vaporizer will save you 5 to 20% of the fuel you buy. This will pay for itself by saving you money on fuel alone.

Long-Run Gear Oil

There have been a number of “gear compounds” on the market in recent years, but most of them are not as effective when subjected to extremes of heat as the semi-liquid oils used in our Long-Run Gear Oil. Our Long-Run Gear Oil has been designed to meet the needs of the modern car, where you may expect to find the gears under much more severe conditions than ever before. A very high-quality semi-liquid lubricant, it is used to lubricate the gears and bearings of your car. It should always be kept under pressure when the car is running, and this is done by using a pressure governor or by placing the oil in a separate tank. This oil is made from a high-grade oil that is subject to extreme temperatures and pressures. It is used in all makes of cars, and is available in 5-gal. cans. It is also available for use in trucks and other heavier vehicles. It is sold in 5-gal. cans, and the cost is $1.25 per gal.

High-Pressure Lubricant

Oiling System for Ford Cars

Preventing Bearing Wear

Often the regular oil inside the Ford motor becomes clogged with pieces of transmission lining and dirt causing excessive and costly bearing wear. One of the great features of this new oiling system is that it will eliminate any chance of this happening to your car. It also helps keep the oil in the motor at the right temperature. Oil flows through a special magnet which collects oil through the suction and returns it to the engine. The motor has an opening for catching the oil on the side of the oil filter. The oil is caught in the filter and caused burned out bearings, because the oil is not catching the oil on the side of the oil filter. It is always safe to have this system for Ford Cars. A few minutes. Full installation directions are included with the parts.

Dash Oil Gauge for Fords

Know how much oil you have and prevent burned out bearings and other troubles that can damage your engine. The oil shown by the dial is caught in the filter and made ready to be used. It is always safe to have this system for Ford Cars. It is always safe to have this system for Ford Cars. A few minutes. Full installation directions are included with the parts.

Oil Gauge with Petcock

Keeps you from getting too much or too little oil in the crank case by telling at a glance just how much oil is in the engine. Oil shown by the dial is caught in the filter and made ready to be used. It is always safe to have this system for Ford Cars. A few minutes. Full installation directions are included with the parts.

"Jumbo" Oil Gauge

One of the heaviest and most substantial oil gauges on the market. A gauge in which the oil is protected by a glass tube. A good reliable oil gauge for all Fords. Petcock to fill and drain the gauge. Comes complete with special petcock.

Pet-Cock Wrench

For use in opening pet cock to find oil level, without having to take off the engine. A very convenient tool that you can also use to open the radiator drain cock which is quite hard to reach. 20 inches long. Blackhead model.

Oil FBA Oil Saver

Replaces regular cap on oil filling plug. Keeps out dirt, dust and moisture out of oil. Made of soft rubber. A very convenient tool that you can also use to open the radiator drain cock which is quite hard to reach. 20 inches long. Blackhead model.

FBA Oil Fitter

Designed to drain oil from the engine and return it to the crank case. A very convenient tool that you can also use to open the radiator drain cock which is quite hard to reach. 20 inches long. Blackhead model.

Crank Case Drain Valve

For Ford Cars

Makes it easy to drain your crank case without getting dirty or greasy. Consists of a hollow plug with drain valve. Replace regular drain plug at bottom of crank case. A half-inch opening. Fits all Fords. Oil and sediment drain easily. Valve is held tightly closed by spring. Ships, wt. 6 oz.

Sturdy Steering Column Brace

For Ford Cars

It is designed to drive a Ford car without using a pair of hands. The column vibrates and makes it very hard to drive. A very convenient tool that you can also use to open the radiator drain cock which is quite hard to reach. 20 inches long. Blackhead model.

"Spring" Shimmy Stopper

For Ford Cars

Consists of two springs made of high tensile steel. A very convenient tool that you can also use to open the radiator drain cock which is quite hard to reach. 20 inches long. Blackhead model.
**Western Auto Supply Co.**

Cylindrical size (For Olds)

Exhaust Pipe Pack Nut Clamp

For FORD CARS

Keep the exhaust pipe pack nut tight, which on many cars comes loose frequently from the weight of the engine and the exhaust manifolds. This clamp will hold the pipe tight, and prevent the exhaust gases from escaping.

Power-King Muffler for Ford Cars

Heavy gage muffler that will last longer and will not rust. Made of high quality steel, it is the best muffler for your car.

Horse Shoe Porcelains

FIGHT CHAMPION X PLUGS

This is a quality plug made of genuine porcelain, with a hollow skirt to prevent excessive carbon accumulation. The center wire is made of high quality steel, and the porcelain is hard and strong. This is the Champion X Plug.

Spark Plug Brush

A very handy tool for removing and cleaning spark plugs. It is designed for use on all types of spark plugs. It is easy to use and will clean your spark plugs in a matter of minutes.

Exhaust Deflector

For 1922-26 FORD CARS

Deflects oil, heat, or smoke from the engine and muffler. Does not interfere with spark plugs or carbon deposits. Fits on all Ford cars from 1922 to 1926.

Exhaust Extension and Deflector

For 1928 Ford

Fastens securely to the exhaust pipe and prevents rain from entering the engine.

Dashboard Ammeters

For ALL CARS

A request replacement ammeter. The meter is an excellent device and will not affect the performance of your car. It will fit all cars since 1914.

Genuine K. W. Coil Points

**Selected Materials**

Wizard Storage Batteries are built of one of the largest nationally known battery manufacturers. The very best materials are used—highest grade red lead and litharge for the plates, the best iron, and best grade of tin—enabling a high-grade, dependable battery for every purpose.

The separators are treated, pressed, and rolled in random cedar, and not the cheap metal so commonly used. They are thoroughly treated and cured, so they allow the current to flow freely, yet give complete insulation, preventing short circuits.

More than 150,000 Wizard Storage Batteries are now in daily use. They have been used under all conditions in all makes of cars and have stood up under every test. From actual records over many years of service we know of no better battery made, regardless of name or price.

**One-Piece Molded Case**

All Wizard Batteries are furnished in the popular molded one-piece case. This does away with busy work and makes a battery that is almost indestructible, as well as water-proof and acid-proof.

**Shipped from Any of Our Stores**

All batteries are fully charged before shipping, then carefully packed in a strong wooden crate, so that the battery will reach you in perfect condition, ready to put in your car. It is shipped direct from our stores, ensuring quick delivery and a small transportation charge.

**Why Pay More Than Our Price**

On approval of our enormous buying power and direct manufacturer-to-car owner system of distribution, we are able to offer Wizard Guaranteed Storage Batteries at a saving of from $8.00 to $15.00, with the privilege of 60 days trial in your own car. Shipped anywhere C. O. D. without deposit if desired.

WIZARD BATTERIES
For Ford and Chevrolet

Over 130,000 Wizard storage batteries are now in daily use, satisfying service to their owners everywhere. These batteries are made from materials which are chosen and used by the best known manufacturers in the world. They are made in accordance with the most improved scientific methods of construction. Only the best selected materials are used; the highest grade lead oxide, the best reserved carbon starters, with extra-thick, top-grade plates, and specially constructed grids which will not crack.

Acid-Proof, Leak-Proof
The case and jugs of Wizard batteries are molded into one solid piece, which is almost unbreakable and leak-proof, water-proof, and stronger, which accounts for their extraordinary strength.

Heavier—Stronger—Fully Guaranteed
Lead is one of the most important and expensive ingredients used in storage battery construction. By actual test, Wizard storage batteries will weigh several pounds more than the average battery. They are built heavier and stronger, which accounts for their extraordinary service and long life.

New Furnished for Fords in Either 11-Plate or 13-Plate Type
There is one important advantage in a 13-plate battery. It is more powerful and responsive in special critical cold weather.

Save 50% on Quality Guaranteed
Wizard batteries are built heavier and stronger than ordinary batteries, and are fully guaranteed, yet our price is equal to those made in ordinary factories. Our owner system of distribution enables us to offer you Wizard storage batteries at a price about one-half the price usually asked for batteries of anything like quality.

Genuine O'Neil Cone Speakers

Unexcelled for Tone, Volume, Reception

We have tested out practically every speaker of merit on the market and in every test we found the O'Neil to rank superior for true tone value, clarity, volume, long life, and attractiveness. Well made of best material, thoroughly tested for distortion, reinforced wood back, over-size baffles, thus insuring longer life, more power, and volume, prepaid anywhere at $450.

Why take chances or experiment with unknown speakers when you can get the O'Neil practically free in our special reduced price? Furnished complete with all necessary accessories, even making for all makes.

New design, beautifully finished in jade green and brown with metal trim and base. Average shipping weight about 6 pounds.

30-DAY TRIAL OFFER

Take this opportunity to compare O'Neil speakers with any other speaker on the market. If at the end of 30 days you are not convinced that you have made a wise choice, return the speaker to us at your expense and we will cheerfully refund every cent that you have paid.
**Fountain Spoke Brush**

79c

*Fountain Spoke Brush*

Attaches right to base and lets you get brush and water to the very tips of your brush at the same time with both hands. All parts are brass, fully welded, and of high quality bristle. Will not rust or bend, even with the finish. Ship. wt., 2 lbs.

**Extra Quality Spoke Brush**

*

Extra Quality Spoke Brush

A handly brush for washing spokes of wood, wire wheels, or any inaccessible part of the car. Brushes are of high-grade fiber and are securely held in place by heavy twisted wire. Length about 15 in.

**Washing Mop**

Screws on in place of nozzle on the end of any 1/4" hose. Makes washing the car a quick and easy job.

Made of soft long white cotton material, it does not scratch or mar the finish. The water flowing through the brush keeps it cool all the time. Dries soft. Hose attachment is brass. Ship. wt., 1 lb.

**Long Handled Washing Mop**

Similar to the above mop but in addition it has a hollow handle, 8 inches long. Allows you to stand back farther from the car and take long changes of the brush. The cotton mop head may be instantly removed, leaving a rubber scrubber for cleaning off coke, mud, etc. Ship. wt., 2 lbs.

**Long Fender Brush**

*For Reaching Out of the Way Places*

A very handy brush for washing under the fenders, the chassis and other out-of-reach places. Helpful in many hard to reach places. The brush is 18 inches long and is about 12 inches wide. Ship. wt., 4 oz. G6905—Fender Brush with long handle...

**Handy Mitten Duster**

Absorbs the dust, instead of scattering it. Polishes the surface without scratching. Lessens labor and exposes many car washings. Made of heavy yarn chamois. Ship. wt., 2 lbs.

**Whole Skin Chamois**

These chamois are No. 1 grade, thick, best quality that can be found. Comes from highland regions in one operation and protects surface from air and moisture. Picks up dust without scratching surface. For use on automobiles, motorcycles, and all polished finishes. Also on brass, nickel and all polished metal surfaces. Made of high-grade chamois. Ship. wt., 2 lbs.

**"Utility" All-Chamois Polishes**

A very serviceable, washable automobile polish made from top quality chamois, double thickness, the pieces being sewed together with metal surfaces and stitched as a piece of chamois and is used in the same manner. Ship. wt., 8 oz.

**Chamois Cloths**

Softly knitted cotton on one side with white finish on the other. Feels soft and like, and takes the place of chamois. Very absorbent and quickly dries. Can be washed and is excellent for dusting, washing, drying, etc.

**High Grade Velvet Sponges**

These are the "velvet" or ordinary commercial sponges, really rubber sponges, with coarse side for washing and cleaning auto bodies. Sizes: 7"x9"...

**Sheep Wool Sponges**

For the man who wants the best.

Sheep's wool sponges are more absorbent and finer textured than veiled sponges, making them softer and looser. Stays a great deal of rough usage without wearing out. The size you offer is the handiest for auto use. Ship. wt., 6 oz.

**Western Dust Cloths**

A specially treated dust cloth, 11x27 inches, that cleans and polishes. Used in one operation and protects surface from air and moisture. Picks up dust without scratching surface. For use on automobiles, motorcycles, and all polished finishes. Also on brass, nickel and all polished metal surfaces. Made of high-grade chamois. Ship. wt., 2 lbs.

**Mechanics' Hand Soap**

Prepared expressly for use by mechanics and others, for quickly removing grease, grime, and stains. Cleans quickly, heating and softening the skin. Will not harm the hands. Manufactured for long use, to keep the hands clean and soft. Every time it is put on the hands, it keeps them clean and soft. The latest and highest development in cleaning harmful. No Acids—no soaps—no tar. It removes all oil and grime, no matter how long it is on. It does not harm skin. Will not chap the hands. Made on for some time. Not like the old soap or other cleaners that stay on the car after it is washed and dried. It removes every trace of oil and grime. Ship. wt., 6 oz.

**Golden Star Polish**

The Quick, Easy Polish that Leaves a Hard, Dry Lustrous Finish

Quick and easy to apply. You need not even have to wash the car. "Golden Star" does all the work. You can completely polish your car in an hour with "Golden Star" and get results in lustrous, hardness and lasting power, equal to practically any other polish, which usually requires a full day to apply. Leaves effective onvarnish, enamel, Duco or any lacquer. Contains no grit and no acids—absolutely harmless. Especially pleasant on cars whose body has just been checked.

**Duco No. 7 Polish**

For All Lacquer Finishes

This polish was originated by the people who originated Duco, as the most effective polish for Duco finished cars. Some polishes have the new finish but Duco No. 7 only adds to its beauty and lasting qualities. It removes all stains. Ship. wt., 6 oz. G907—Duco No. 7 Polish, pint size...

**Duco No. 7 Nickel Polish**

A very quick and effective paste polish for nickel, brass, copper, aluminum and any of the metals that are used in automobile lacquer part. Developed by the famous Duco Star Co.

**Golden Star Nickel Polish**

Cleans and polishes nickel, making it bright and beautiful. A little goes a long way. Easily applied with a cloth or brush. Effective too. To use. Does not harm surfaces. Handly screw top can prevent leakage or evaporation.

**White Cotton Waste**

Fine quality, long thread, white cloth for cleaning or polishing the car. Price...

Our Reduced Price

---

**Genuine Simoniz Polish and Cleaner $4c**

Simoniz is one of the best and most up-to-date cleaners and polishes on the market. It not only cleans but puts a polish on the car that stays on for some time. Not like the most polishes that have to be put on every time the car is cleaned, it will be as bright as ever with dusting off. It will remove dust, dirt and spots, giving car a brand new sheen. Pull directions on every can.

**Common-Sense Polish**

The Popular Auto Polish

A wonderful, priceless polish that removes auto finish general use, clean, finish, protect as well as beautifies.

**999 Auto Polish**

The honest and highest development of Auto Polish. Contains absolutely nothing harmful. No Acids—no soaps—no tar. Makes auto finish general use, cleans almost instantly—polishes like car starter and surfaces. Able to use because of the quick results. Leaves a hard, dry finish that cleans and polishes on the market. Common-Sense Polish is also an excellent cleaner for glass.

**Sponge**

**Mechanics’ Hand Soap**

Prepared expressly for use by mechanics and others, for quickly removing grease, grime, and stains. Cleans quickly, heating and softening the skin. Will not harm the hands. Manufactured for long use, to keep the hands clean and soft. Every time it is put on the hands, it keeps them clean and soft. The latest and highest development in cleaning harmful. No Acids—no soaps—no tar. It removes all oil and grime, no matter how long it is on. It does not harm skin. Will not chap the hands. Made on for some time. Not like the old soap or other cleaners that stay on the car after it is washed and dried. It removes every trace of oil and grime. Ship. wt., 6 oz.

**Golden Star Polish**

The Quick, Easy Polish that Leaves a Hard, Dry Lustrous Finish

Quick and easy to apply. You need not even have to wash the car. "Golden Star" does all the work. You can completely polish your car in an hour with "Golden Star" and get results in lustrous, hardness and lasting power, equal to practically any other polish, which usually requires a full day to apply. Leaves effective on varnish, enamel, Duco or any lacquer. Contains no grit and no acids—absolutely harmless. Especially pleasant on cars whose body has just been checked.

**Duco No. 7 Polish**

For All Lacquer Finishes

This polish was originated by the people who originated Duco, as the most effective polish for Duco finished cars. Some polishes have the new finish but Duco No. 7 only adds to its beauty and lasting qualities. It removes all stains. Ship. wt., 6 oz. G907—Duco No. 7 Polish, pint size...

- **G6821-1-Pint Can** (Ship. wt., 2 lbs.)...

**Saharid Dressing**

The best waterproofing for tops, tents, awnings, etc., that you have ever found. Penetrates the material and renders each individual fibre water-resistant. Leaves material soft and pliable—will not peel off or crack—provides excellent moulded appearance. Tested and approved by all in any climate. Try a can of Saharid and see for yourself the wonderful results.

- **G6828-4oz. Can** (Ship. wt., 1 lb.)...
- **G6922-1 Pint size**, **Black (wt., 2 lbs.)**...
- **G6939-Quart size**, **Black (wt., 3 lbs.)**...
- **G6940-6 oz. Colorless (wt., 1 lb.)**...

- **G6913-Saharid Closed Car Special top dressing.** Of this kind clothes may be washed, cleaned, and tanned, giving a beautiful flat, dull surface which adheres to the paint on your car. The extra heavy Panazote prevents any top from becoming dull-and the base color is still very fine to the touch. Leaves Latex-in-can enamels give a nice to any old one of panazote or rubber, or gum, surfacing it with an elastic coating of a natural leather one. It is more elastic than leather, and freezing, scorching, and sunlight do not affect its elasticity or finish.

- **G6930-1-pint Can Rubber Coat** (Ship. 3 lbs.)...

**Lining Dye**

Will dye the lining of any top a perfectly uniform color, eliminating every spot or dirt or dirty streaks, at one application with a sponge, without removing the top. Wipe off sud or dissolve with gasoline. Any one can apply dressing with a soft brush. Thin it in water. The application is on the tube. Let stand 24 hours. Give a beautiful finish.

- **G6828-4oz. Can** (Ship. wt., 1 lb.)...
- **G6922-1 Pint size**, **Black (wt., 2 lbs.)**...

**Cylinder Enamel**

A high-grade, heat resisting enamel for painting automobile motors, boilers, etc., in average temperatures. Will not affect any metal or plastic, and freezes, and is more elastic than leather, and freezing, scorching, and sunlight do not affect its elasticity or finish. It is more elastic than leather, and freezing, scorching, and sunlight do not affect its elasticity or finish.

- **G6930-1-pint Can Rubber Coat** (Ship. 3 lbs.)...

**Rim Paint**

Prevents rust, which spoils inner tubes and the crusty coating on them. Makes tires change easily. Prevents rusting tube when removed from the wheelset life to the tube. Put up in 34-pint cases—enough for four assemblies. Shipping weight, 1 lb. Available for a wide variety of sizes, ranging from 1 oz. to 2 lbs.

- **G6828-4oz. Can** (Ship. wt., 1 lb.)...

**Handy Sand Paper Assortments**

These assortments are made of the highest quality sandpaper available. For use when repainting cars, etc.

- **G6933-Sand Paper, for use on dry surfaces**...

**Steel Wool**

-used anywhere you have surprisingly tough sandpaper. Cleaning up rough or rusted spots, before painting, it can be used on all kinds of metal. A dependable household for cleaning pots, pans, and dishes. Better work when used wet.

- **G6935-Steel Wool, per package**...

**Paint Remover**

If the paint on your car is bad, you should use a paint remover like the paint shop. This entirely removes all paint, varnish, etc., and leaves a clean surface upon which to build up the new finish.

- **G6936-One pint can** (Ship. wt., 1 lb.)...

**Clear Auto Varnish**

A pure enamel varnish, which adds depth and richness to the color and produces luxuriously bright appearance.

- **G6937-Quart can** (Ship. wt., 2 lbs.)...

**Western Paint and Varnish Remover**

Simply mix with water, apply to paint or varnish, and let it work for a few minutes and it will wash off in water like mud, leaving the bare metal exposed. The best remover we have ever seen, easiest to use. Fits can make a gallon of liquid, enough for any ordinary car.

- **G6938-One pint can** (Ship. wt., 1 lb.)...

Ever-Tite Solid Rubber Hose Connections FOR FORD CARS

A super quality, pure rubber hose. Actual tests prove that this strong, solid rubber lasted three or more times longer than the old hose. It is impossible to Adresse solutions and flowing water. It saves time, labor and money in replacing hose automatically for one year. Each modulized from Ford cars. Shipping weight, 6 oz.

G2500 - Small, for bottom, each
G2506 - Large, for top, each

Western Radiator Cement

Instanly Stops All Ordinary Leaks

A liquid cement that will instantly stop any crack in radiator, water jacket, pump and connections. Does not contain any injurious ingredients. Will not clog water jacket, pump and connections. Positively guaranteed to permanently repair any ordinary leaks in radiator, water jacket, pump and connections.

Our Reduced Price

G8521 - "X" Liquid, for Ford and other small cars (Ship wt., 4 oz.)
G8522 - "X" Liquid, for larger cars (Ship wt., 8 oz.)

Western Auto Supply Co.

Improved Honeycomb Radiators for Ford

Greater Cooling Capacity
Core Guaranteed 18 Months Against Breakage From Freezing

Our Improved Honeycomb Radiator offers many special advantages over the regular type Ford radiator. First among these is the "honeycomb" core which has a much greater water capacity and also presents a greater cooling area, so that a car with this radiator will run cooler and not require refilling as often. The flexible core will stand more expansion than we guarantee the core 18 months against damage from freezing.

Improved Scientific Construction

One of the Best Material Used

These radiators are exceptionally well made. All parts coming in contact with the water are made of bronze. Both upper and lower tanks are of one-piece brass construction, without seams, practically eliminating all possibility of leakage. The core is of fine brass, also the overflow pipe and the filler neck, so that the cap couldn’t possibly rust or leak fast.

The radiator has been scientifically constructed, so as to adjust all stress and strain off the core. The spring, clamps supported, under the entire bottom are solid and bolted to the bottom tank, taking side strain off the radiator and permitting a resilient spring action. The spring frame carrying upper part of the core and relieving all shock and strain, even the hood rod has been reinforced.

Improves Appearance of Car

The graceful lines and attractive finish of these radiators make them an ornament to any car. Every radiator is finished in high grade gray enamel. Comes complete with cap, as illustrated. Every radiator is care fully tested before leaving the factory. Completely packed in strong crate. Requires only a few minutes to install. Shipping weight, about 35 lbs. Can be sent by any mail, or by express.

For those who prefer the regular tubular radiator, or, we offer this well made, high grade radiator, at a worthwhile saving. Made of the best material by one of the largest radiator manufacturers. Carefully inspected and tested fully guaranteed. Furnished either with black enamel or without any shell. Shipping weight, 6 lbs.

Superior Tubular Radiator

For Ford Cars

$875

For Chevrolet

For Dodge
**Western Special Water Circulators**

For Ford Cars and Ford Trucks

By keeping the water constantly in rapid circulation over the hot motor, a Western Special Water Circulator on your car will prevent freezing as well as a sleeping, overheating wasteful motor, under conditions that would ruin the motor without it. Water and Summer, both deal deep motor at the high temperature.

Don't allow your engine by letting it get overheated and steam and boil, for it is sure to cause trouble with the bearings and cylinders that will cost you several dollars to repair. An engine for which it is designed to overcome these conditions. It has 2 extra long bearings of the finest Bronze. The packing nut is the improved internal type which we guarantee to be superior to any other packing nut. The Fan Pulley is double flanged so that the drive is positive and the bolt cannot fly off. Very easy to install as it does not require any special tools or pipe in two.

The Western Special is superior to pumps that others ask from $5.00 to $7.50 for, but our direct-factory-to-car-ownersystem of distribution enables us to offer it to you at a remarkably low price.

Not only do we prevent rust in the motor but it wastes oil, less power, and causes carbon knocks.

With installing a Western Special Circulator you will save fuel and oil, and have a cold radiator for cold weather.

**Installation is very simple—done in 15 minutes.**

Does not interfere in any way with the operation of the car or the benefits of the 3-point suspension principle.

Shipping weight, 6 lbs.

**Stop Wasteful Vibration! Save Gas, Save Your Car, Add Power**

**Little Giant Anti-Vibrator**

For Fords

If you have noticed vibration in your car, you should install Anti-Vibrators at once. They will save you money in a short time by saving gasoline, reducing power, and preventing damage to motor, and keep Anti-Vibrators from interfering with the running of the car.

Installation is very simple—done in 15 minutes.

Does not interfere in any way with the operation of the car or the benefits of the 3-point suspension principle.

**Western Giant Anti-Vibration**

For Fords and Chevrolet

Comes complete with pack ready to put on your car.

**Asbestos Wicking**

Selected asbestos fiber, spun into strands, can be separated and made into wicks for electric lights, to keep the Wicking of the lamp from changing. Comes complete with Pack ready to put on your car.

**Asbestos Yarn**

Pure asbestos yarn. Used especially for fan motor.inds and electrical parts. Comes complete with Pack ready to put on your car.

**Flanged Fan Pulley**

For 1920-27 Ford Cars

Simply replaces the plain crankshaft pulley and keeps the fan belt from slipping off of either pulley. Lengthens life of fan belt. Especially fine for use with water circulator. Made of steel, accurately machined. Easily and quickly installed. (Ship. wt. 12 oz.)

**Sta-Rite Pulley Rim**

For 1920-27 Ford Cars

A specially designed metal rim with flanges, which clamps on the regular Ford fan pulley, without taking the fan off. Also holds the crank pin tight without using a cotter-pin. Easily installed with a screwdriver. Made of steel, accurately machined. (Ship. wt. 8 oz.)

**Wasteless Vibrations! Save Gas, Save Your Car, Add Power**

**Giant Anti-Vibrator**

For Fords and Chevrolets

About 16% of the cost of running your car is wasted in harmful vibration—sinking your car to the junk heap you should remove it. You can prevent most of this destruction by installing a Giant Anti-Vibrator—as well as save many repair bills and enjoy a smoother, more quiet and powerful motor.

**Consists of an iron block that rests against the motor head where the vibration is the greatest. The yoke is forced up and in against the motor head by two strong steel springs that prevent the fan belt from slipping off the pulley.**

**Installation is very simple—done in 15 minutes.**

Does not interfere in any way with the operation of the car or the benefits of the 3-point suspension principle.

Shipping weight, 6 lbs.
Guaranteed to Give Long Life and Satisfactory Service.

Our "Western" Cord fan belts have been specially treated to make them oil, heat, and water-proof, thus giving them a longer life than ordinary belts. The rubber used is made of high quality rubber, treated to give it excellent resistance to oil, heat, and water. The fabric is made of five endless cords of a special type, woven in a special way, to give the belt a longer life than ordinary belts.

**Anti-Rattling Ball Sockets for Ford Radius Rods**

Replaces the solid ball that holds the front rod bushing to the radius rod and eliminates all rattle, taken up all wear and holds the joint firmly. It requires only a few minutes' time to remove the old bushing and replace with our device, which will never wear out or become weak. 

Ship wt., 6 oz.

85259—Anti-Rattling Radius Rods, pair...

**Handy Handles for Ford Doors**

A solid casting, finished in black enamel. They are attached by simple driving out two present door handles. Anyone can put them on in a few minutes. Project a little way above the door and permit the door being opened without the use of lock and pins. Just slip on and take off. With a slight pressure on the hand grip, a longer bearing becomes effective. 

Shipping wt., each...

**Rubber Hood-Pad Buttons**

To Replace Warehouse on All Cars. Stop Squeaks and Rattling Without Lacing. 

Just take the old hardened rubber in the pad and cut, as shown above, thus making two new buttons. They are made of soft rubber and have vacuum cups that keep them in place. 

85254—Rubber Hood-Pad Buttons, 4 pair...

**Rubber Arm Anti-Rattler**

A very cleverly made little spring device that fits over the ball joint of the steering gear ball arm and clamps against its ball joint of the steering gear ball arm and clamps against the radius rod to rattle. This allows the radius rod to rattle and stops the rattling at this joint and lessens the wear.

"Kant-Break" Brake Shoes

Proof against breaking. Ordinary brake shoes cannot be broken where the brake shoe body is an integral part of the brake lining, of very little use, and causing them to be called "Kant-Break." Shoes are made in 2 pieces which are joined by a rivet. Will give for the price and service that it has never been matched by any other.

Brake Adjusters for Fords

When the Fords brake shoes are worn out, they should be thrown away, as the brake shoes come out of the brake shoe body and are designed to engage the drum. By driving these shoes as close to the drum as possible, the life of the shoes is increased 25%.

Steel Brake Shoes

Made of cold rolled steel, lined with high quality brake lining. Holds much better than a semi-metal shoe, lasts much longer and will not break into pieces like the cast iron. Can be fitted again with new special lining.

Channel Steel Brake Shoes

Cannot break, slip or warp, and lining can be replaced in many cases.

For 1909-25 Fords

Usually the same size and shape of the shoes which come in the Ford. Made of good quality gray cast iron. Ship. wt. each 2 lbs. D6106--Brake Shoes, each 28. D6118--Brake Shoes, per pair 39.

Genuine Scandinavia Brake Linings for Ford Cars

This well-known Scandinavia brake lining will not grab and will not chatter under severe strain. Made of the very best materials with only 7 wearing parts which are guaranteed for the life of the car.

Speed Transmission, Ford Passenger cars

Genuine linings are made in 2 pieces and double as much braking surface as regular lining. Ship. wt. 37 lbs., 39.50; with high quality 2.50; with high quality 2.75.%
Form a more perfect...
Non-Vibrate Crank Case Support
EASY TO INSTALL

The great features of this crank case support are its ease of installation. It requires no bolting to the frame. It fits, heavy, sturdy construction, and a weight that stops vibration. Especially designed for hooked arms simply hook into and over the engine to form the car unbreakable and unbreakable. The tighter you pull it, the better it holds. It will help support the engine and prevent it from shifting to the left or right.

When a Ford crank case arm breaks, repairs are difficult, expensive and time-consuming. A new arm has to be riveted on. Use this tool to eliminate the use of this heavy, sturdy support arm. The tool can be used in half the time of the ordinary repair arm—no shims or shims to use. It has a tapered off plug, which fits into a tapped socket hole in the crank case repair arm. This plug can be removed in the socket hole until it is in the regular location of the arm. The tool holds a bolt in the regular location, and the nut is tightened. The nuts and bolts are then removed. Then the arm is locked in place and bolted through. The tool can be removed.

Heavy-Duty Spring

Made Extra Heavy For Hard Service

More than 1,000 extra-heavy springs in stock. Our "Heavy-Duty" Springs will stand for hard service. The new springs are made from the regular springs. Made from the finest spring material and are very light. A special edition of our "Heavy-Duty" Springs is available. These springs are stronger and more substantial than the regular ones. GENUINE ARMSTRONG CORN GASKETS FOR FORD CARS

Packed Gasket Sets 1909-24 Fords 28c
Made of high grade cork felt in the gasket sizes and shapes to fit parts shown.

Gasket Shellac Compound
Western Gasket Shellac Compound Is a Scientific compound of the highest quality grade and is ready for use.

New Graphite Shellac
A scientific compound of the highest quality grade and is ready for use.

Sheet Cork
High quality cork, 1/16 in. thick, for use in making gaskets.

Cylinder Head Gaskets for Popular Cars
Standard quality gaskets—guaranteed to fit perfectly. Have an extra set for emergencies.

Combination Gasket and Gland for Ford Manifolds
A special "two-in-one" gasket which takes the place of both No. 2000 and 2620 gland and gasket for Ford exhaust pipe and manifold. Built to fit in place behind each manifold without changing the manifold or gaskets. Made of soft, pliable, non-ferrous material. Length, 4 feet. Weight, 1 oz.

Automatic Take-Up Connecting Rod Bearing Bolts
Positively guaranteed to stop connecting rod knock. Made of the finest quality grade and is ready for use.

Connecting Rod Bearing
Dacron bearing only. Take out the old bearing and replace with this bearing. Fitted to the Ford Rod and by a crimping tool. Is a permanent bearing which can be done with a hammer. Made of the highest quality grade and is ready for use.

Babbitting Jig and Babbitting
Enables you to re-babbit bearings in Ford connecting rods with the greatest accuracy. Can be used by Ford owners in their own dwellings. Full details with each.

Wires for All Mechanical Uses
STOVE PIPE WIRE
Black, .015 in. dia. Has a thousands uses. Ship. wt. 6 oz.

Ball Shim for Universal Joint
FORD CARS
Takes up the extra play at the ball-joint, stopping oil leakage and rattles. Also corrects a rear axle chattering when turning and stopping. Can be used in any minute, and does the work that would other wise require a new joint and some parts of parts. Made of the highest quality grade and is ready for use.

Underpads Parts for Fords
Lowers the chassis of the car about 4 inches. This improves both appearance and riding and safety even on sharp turns. Also decreases load on the wheel, making it easier to handle. Fitted and rugged. Easy installation. Necessary to increase rear axle housing or remove rear wheels. For car without the necessary parts, will fit any Ford car. Instructions furnished with each set. Shipping weight, 20 lbs.

Extra Quality Connecting Rods
FORDS AND CHEVROLET
Carefully made forgings with finest S.A.E. specification babbitt. Made of the finest quality grade and is ready for use.

Genuine Armstrong Cork Gaskets
for general use with the well recognized superior qualities of cork. Made of strong cork pressed by a special patented process which renders them pliable, cheap, and long lasting. Each gasket is made of cork pressed cork of the same quality as the original gasket. Each gasket is also cut to fit the original gasket. Each gasket comes in sheets, 12 x 36 in. Each gasket is 1/2 in. thick, for Ford, all models. Spearman's Set, 1909-24 Fords. Spearman's Set, 1924-26 Fords. Spearman's Set, 1926-27 Fords.
Western Auto Supply Co.

Genuine Ramco Cushion Inner Ring

Guaranteed to Stop Oil Pumping and Piston Slap. Bring in your original Ramco Ring and compare the new Ramco Cushion Ring for density, weight, power, and performance. A lightweight, cushioned fit, it is described as the closest thing to a "mushroom" you can get in the piston ring and hold the piston in the center of the cylinder. Made of specially treated long-grain steel that will not distort, it is made to the tightest tolerances possible. A close fit, it is made to the tightest tolerances possible. Fits rings from .0025 to .0029. Made of specially treated long-grain steel that will not distort, it is made to the tightest tolerances possible. Fits rings from .0025 to .0029.

For Pistons for Ford Cars

Oversize Piston, 8AC: Oil Drained In Ring. For best results, the oversize piston is made with a ring groove that is deeper than the original. This provides better lubrication, reducing friction and wear. Made of the highest grade of steel, it is designed to fit the cylinder wall perfectly. Fits rings from 3 to 4 in. diam. Made of the highest grade of steel, it is designed to fit the cylinder wall perfectly. Fits rings from 3 to 4 in. diam.

Piston Ring Expanders

Are placed under any make of piston ring and push gas and oil out of the cylinder. Made to fit perfectly in the cylinder, they will not stick to the ring or the piston. Fits rings from 3 to 4 in. diam. They are made of high grade material, not affected by the heat of the engine. Made of high grade material, not affected by the heat of the engine.

Cylinder Lapping Compound

For fitting and finishing pistons, to join together the ring and the ring groove. Made of the highest grade of steel, it is designed to fit the cylinder wall perfectly. Fits rings from 3 to 4 in. diam. Made of the highest grade of steel, it is designed to fit the cylinder wall perfectly. Fits rings from 3 to 4 in. diam.

Bog Piston Ring Compressor

Does the work quickly and easily. A band is wide enough, there is no trouble making it. Fits rings from 3 to 4 in. diam. Band is wide enough, there is no trouble making it. Fits rings from 3 to 4 in. diam.

For Piston Ring Compressor

Made of high grade material, they are designed to fit the cylinder wall perfectly. Fits rings from 3 to 4 in. diam. Made of high grade material, they are designed to fit the cylinder wall perfectly. Fits rings from 3 to 4 in. diam.

Ventilated Piston Rings

Now used as standard factory equipment on many cars. The popular General Motors line uses them almost exclusively. They eliminate carbon knock and practically all carbon deposit, reduce the oil in the crankcase. The rings are designed to withstand the full power of the engine. Made of high grade material, they are designed to fit the cylinder wall perfectly. Fits rings from 3 to 4 in. diam. Made of high grade material, they are designed to fit the cylinder wall perfectly. Fits rings from 3 to 4 in. diam.

The World's Leading Auto Supply Stores.

New Improved Oil Groove Piston Rings

A set of these rings in your car will show you a marked increase in power, a greatly increased life, and a marked reduction in oil consumption. For example, it is shown that the use of these rings will reduce the oil consumption by 50%. For example, it is shown that the use of these rings will reduce the oil consumption by 50%.

For Piston Rings for Ford Cars

Made of the highest grade of steel, it is designed to fit the cylinder wall perfectly. Fits rings from 3 to 4 in. diam.

Piston Ring Compressor

With this compressor, the piston rings can be set. A professional job is enough to compress the ring. Fits rings from 3 to 4 in. diam. A professional job is enough to compress the ring. Fits rings from 3 to 4 in. diam.

For Engine Rings for All Cars

Mitre-Cut Piston Rings

The material used in these rings is a special mixture of metals, resulting in a springy ring not affected by heat. Made of high grade material, they are designed to fit the cylinder wall perfectly. Fits rings from 3 to 4 in. diam. Made of high grade material, they are designed to fit the cylinder wall perfectly. Fits rings from 3 to 4 in. diam.

Step Cut Piston Rings

High-grade rings in all popular sizes. Well-made of best material, accurately machined to the proper size. Made of high grade material, they are designed to fit the cylinder wall perfectly. Fits rings from 3 to 4 in. diam. Made of high grade material, they are designed to fit the cylinder wall perfectly. Fits rings from 3 to 4 in. diam.

Genuine "No-Leak-O" Oil Sealing Rings

One of the best known and most popular rings. Millions are in use on this engine. One will probably be found in your garage. The Oil-Sealing grooves at the bottom of the ring are designed to hold oil in the ring and the cylinder wall. This film prevents loss of compression, wear, and oil. One of the best known and most popular rings. Millions are in use on this engine. One will probably be found in your garage. The Oil-Sealing grooves at the bottom of the ring are designed to hold oil in the ring and the cylinder wall. This film prevents loss of compression, wear, and oil.
Front Fender Braces for 1926 Fords

The front fenders on 1926 Ford cars are much heavier than on older models and in addition carry the weight of the new headlight. The metal vibration of all the parts causes them to sag and break unless supported by a fender brace. The fender brace also makes an ideal license bracket.

W372—Superior Fender Brace, (Ship. wt. 4.5 lbs.) $1.45
W372—Fender brace for 1926, Same in design, material, and method of attachment as W372 but finished in Black Enamel. (Ship. wt. 4 lbs.) $1.05

Western Special Fender Brace

FOR FRONT OR REAR OF 1926 FORD CARS

An improved adjustable fender brace with special clamp on fender, so that it holds an inch higher than the ordinary type, preventing the fender from striking against head lamps or radiator. Made of high-grade steel with strong, neat turnbuckle for adjustment. A fortunate purchase enables you to offer an extra sturdy front brace. The brace consists of the front fender brace, (W371) ........................................ 67.50

The wrench that stands the test. Made of highest grade materials and absolutely guaranteed to last.
Lancaster Valve Lifter
Extra Quality at Moderate Price

Anyone can grind valves with the "Sioux" Valve Grinder, just as easily and efficiently as a professional!

For the "Sioux" Valve Grinder you can eliminate expense by grinding the valve yourself during your spare time.

When your valves are off set or straightened they are ground and polished, but they are not fitted to the seat in the cylinder head. When you fit the valves to their seatings and get a perfect seal and the necessary pressure required, they are designed to overcome this difficulty. The "Sioux" Valve Grinder will fit any valve seat better than you could even by an hour of grinding.

When your valves are in place and get them fitted to their seatings, you then have the perfect seal of each valve on the seat, just as the manufacturer had it when the engine was new.

These tools are made to last a lifetime. Every person who earns his own living needs these tools. Made of the very best steel and carefully ground.\

Cowl Ventilator Caskets
Makes a very practical installation. dust, wind, and rain. Made of rubber and metal. Installs easily. Instructions given.
Clamps around exhaust pipe just back of the pack nut. Fresh air is forced in at the front, is warmed by the exhaust pipe, flows out of the round, and enters the car through the 1/4"-8*4 pipe. Heats up instantly, keeps car snug and warm and insures perfect ventilation even in the coldest weather. Comes complete with full instructions for installation. Easy to install. No cutting or drilling necessary except on floor board. Does not interfere with removing floor boards. (Ship, wt. 8 lbs.)

W3647-Hot Wave, for all model Chevrolet. 

Flush Floor Board Type for any Car

Pipe flush on floor board. Valve on the exhaust pipe directs fresh air almost all heat through the scientifically arranged baffles. The space is then led off at the rear, at the rear, and the rear. The valve is fully tested. Made of special cast metal. Has dash control or can be shut off at the register. Will keep any size car warm. Will cost you any size exhaust pipe; size 14"x12.5. X8385-Flush Type, for any car (Ship, wt. 10 lbs.)

Rail Type Register for Floor Board

For installing on cars where a register is not desired. Exhales direct into the 20"x4 inches. Makes a warm foot rest. Easy to install. Heats up quickly, radiates a great amount of heat. Thoroughly tested against leaks. No need of installation. Installation of 14"x12.5. Valve is so made that it fits properly on any size register. True points of superiority make it stand head and shoulders above all other registers produced. 6 lbs. X8387-Ford Special with complete with valve, control, and 6 feet flexible tubing. X8389-Exhaust Pipe Clamp Type Heater

Clamps around hottest part of exhaust pipe. - You can't cut exhaust pipe at all. Air is taken through opening in exhaust pipe and forced into car. Register is fastened to inside of car. Control is top of register, and is easily controlled. So small that it will fit any size exhaust pipe, and fits perfectly without cutting or drilling.

W3442-Cast Iron Hot Wave, for any model T Ford.

W3464-Cooper Forced Draft Heater for all cars.
You Cannot Buy
A Better Enclosure at Any Price!

We have examined and tested practically every enclosure that has ever been offered for Ford and Chevrolet cars. We do not believe in the claim that our Improved Weatherite Enclosure is not the biggest enclosure value we have ever seen. It is a high-quality, more durable and efficient than the others that are usually offered at from $12 to $25 more than our price.

CLOSED CAR COMFORT—HANDSOME APPEARANCE

Our enclosure makes your car as comfortable as a closed car. Special 4-ply construction of leather, reinforced backings, steel frame, and canvas makes it sturdy and rigid like part of the car, so that it will not sag, lose its shape, or “belly out.” It gives the car a handsome appearance for its perfect fit without alterations. Attaches snugly at windshield, body, and behind, and under the top that it keeps cold wind away, snow, dust, and rain. A special steel and fabric panel beneath the top supports, keeps cold wind away, snow, dust and lint from entering the enclosure and the top and flares the sides to keep snug against. Doors open like regular car doors and are full width and height.

MANY IMPROVED FEATURES NOT FOUND IN OTHER ENCLOSURES

Every available inch is used for windows giving over 300% more vision than most other enclosures. Windows are made from Pyrex, extra thick and durable and as clear as glass. Handles for opening the doors are made of construction so that doors open from the outside. Center windows on both sides may be instantly opened for ventilating or ventilation.

EASY TO INSTALL

Anyone can install it in an hour. Only a small screwdriver needed. Every part is marked exactly where it goes and complete instructions are furnished with each set.

TIRE PRICES REDUCED!

Please turn to pages 2 to 12 of this catalog where you will find our Western Giant and Wean-Well Cords, Balloons and Western Giant Heavy-Duty Truck Tires, fully illustrated and described and priced at our new reduced prices.

Save $5 to $25 on Every Tire

Our tire prices are now the lowest we have ever been able to offer. For instance, we are now offering a 30 x 3½ x standard size cord tire guaranteed for $8.00, for only $5.50, and other sizes at proportionate savings. Our enormous buying power and our direct-from-factory-to-carowner method of distribution enables us to offer you these high-grade, guaranteed tires at prices that will save you from $5 to $25 on every tire, depending on the size. Hundreds of thousands of these tires now in daily use.

We ship tires everywhere C. O. D. without deposit.

Visit Our Retail Stores

All tires sold in our stores will be mounted on your car at no extra expense. We invite our customers to take advantage of this special service.

Parcel Post Rates and Shipping Information

How To Figure Parcel Post Charges

<table>
<thead>
<tr>
<th>How Far Do You Live from Our Store?</th>
<th>What Will Your Package Weigh?</th>
<th>For weights up to 1 pound, the postage is:</th>
<th>For each additional pound or fraction of a pound, add:</th>
</tr>
</thead>
<tbody>
<tr>
<td>In Zone 1 not more than 50 miles</td>
<td></td>
<td>7c</td>
<td>1c</td>
</tr>
<tr>
<td>In Zone 2 over 50 miles not more than 150 miles from Our Store</td>
<td></td>
<td>9c</td>
<td>2c</td>
</tr>
<tr>
<td>In Zone 4 over 150 miles not more than 300 miles from Our Store</td>
<td></td>
<td>10c</td>
<td>3c</td>
</tr>
<tr>
<td>In Zone 5 over 300 miles not more than 600 miles from Our Store</td>
<td></td>
<td>11c</td>
<td>4c</td>
</tr>
<tr>
<td>In Zone 6 over 600 miles not more than 1,000 miles from Our Store</td>
<td></td>
<td>12c</td>
<td>5c</td>
</tr>
</tbody>
</table>

Example: If you live in the 2nd zone and order merchandise weighing 10 pounds, the parcel post charge is 9c for the first pound and 10c for each of the nine additional pounds (9c), making a total of 16c.

Be sure to send plenty of money to cover postage. If you want goods sent by Parcel Post, if you send too much we will return all that is not needed.

Our Terms

Cash with order or C. O. D. We do not require any deposit on C. O. D. orders. We will allow examination if received on C. O. D. express or freight shipments, but the postal miles will not permit Parcel Post C. O. D. packages to be opened or examined.

Our References

If you will know more about our responsibility, write any bank in any city where we have a store, or consult Don't use established Commercial Banks or any local bank in your town that has the commercial agency service can tell you our standing.

Remittances

Send your remittance by personal check, by money order, or by any other conversion form. If you live on a rural route and want a Post Office Money Order, your rural carrier will buy a money order for you and mail it to you. Just give him your letter and the money order, and he will do the rest. We will accept postage stamps for amounts under $1.00. If you send currency or stamps be sure to register letter.

Where shipments are to go by Parcel Post, always include sufficient postage, see Parcel Post rate table above. If you send too much, balance will be returned to you.

We Ship C. O. D. Anywhere Without Deposit

Prices shown in this catalog are subject to change without notice. This catalog supplements all previous issues.
