Gentlemen,-

Replying to your valued favor of the 26th ult. would state that we wish to thank you for forwarding us the gaskets as per our telegram. We hope that some time in the near future we may be able to order at least in larger quantities than one dozen at a time but no doubt you appreciate that we are experimenting with different makes with the idea of determining their merits and you no doubt will hear from us at a later date.

Waiting, we are

Yours truly,

Ford Motor Company.
